
AVE-Karaoke Digital Audio Processor

Functions >>>

- 15-segment PEQ for Music , 7-segment stereo digital modulation control, adjustable noise gate control;
- 15-segments of dual channel PEQ for microphone, 4 levels of anti-howling;
- Free drive USB connection, wireless WIFI debugging;
- Control by iPhone,iPad and computer software;
- 3 sets of RCA, **optical**, coaxial input;
- High-quality multi-mode reverberation and echo technology;
- Boot mode lock, volume lock function;
- Manual automatic signal source input selection;
- VOD computer number remote control interface;
- Password setting, with engineering password lock;

Specification >>>

- Maximum input electronic level:4V(RMS)
- Maximum output electronic level:4V(RMS)
- Music channel gain:MAX:12dB
- Mic sensitivity:64mV(Out:4V)
- S/N Ration:>80dB
- Frequency Range:±1dB 20Hz~20kHz
- Input Voltage:220V 50Hz
- Measurement(L*W*H):430mm*185mm*50mm
- Gross Weight:2.8kg
- Net Weight:2.3kg

Software Interface >>>
